PROFESSIONAL SUMMARY

Results-driven **ITSM & Licensing Professional** with **8+ years** of experience operating and improving enterprise IT Operations and Software lifecycle processes within global environments. Proven expertise in IT troubleshooting, license governance, cost optimization, and IT strategy alignment. **ITIL 4 certified** with strong analytical capabilities and hands-on experience in Microsoft and Adobe license attribution, audit readiness, and infrastructure-related governance. Recognized for thinking in lifecycle terms (acquire–deploy–operate–optimize–retire), enhancing asset transparency, and delivering measurable resource optimization aligned with business and IT strategy.

CORE COMPETENCIES

- IT Asset Lifecycle Management (Hardware, Software, Cloud)
- Group-Level IT Governance & Policy Alignment
- Process Leadership & Process Optimization
- License Attribution & Optimization (Microsoft, Adobe)
- Operational Excellence & Customer Satisfaction
- Cost & Resource Optimization
- Audit & Compliance Management
- IT Strategy Alignment
- KPI & Performance Reporting (Power BI)
- ITIL-based Incident, Change & Asset Processes
- Cross-Functional Stakeholders Coordination

PROFESSIONAL EXPERIENCE

IT Engineer | Cloud Infrastructure (Adecco via TCS) | Budapest, Hungary

2025 – Present

- Support infrastructure environments (cloud, endpoint, compute-related systems) within ITIL governance framework.
- Enhance data accuracy across asset records, reducing discrepancies and improving reporting reliability.
- Automate compliance and monitoring reporting processes improving operational efficiency by 15%.

- Collaborate with the Global Security Operations Center (GSOC) to manage the end-to-end lifecycle of security incidents, including triage, prioritization, escalation, and resolution coordination

Software Asset Manager | IT Operations Lead (TotalEnergies via TCS) **–** Budapest, Hungary

2021 – 2025

- Operated enterprise-wide IT asset and license management processes across multiple regions.
- Managed full software lifecycle governance (procurement validation, allocation, monitoring, optimization, retirement).
- Improved CMDB accuracy by aligning license records with operational and procurement data sources.
- Ensured alignment with IT governance, compliance, and audit requirements, contributing to 100% audit readiness.
- Delivered 20% measurable cost savings through usage analysis, license re-harvesting, and contract optimization.
- Partnered with infrastructure, security, and finance teams to align asset usage with IT strategic objectives.

IT SAM Associate | IT Customer Support (TotalEnergies) via Tata Consultancy Services (TCS) – *Delhi, India*

2019 – 2021

- Acted as key point of contact between IT, security, vendors, and business teams for software licensing matters
- Processed and validated compliance requests while ensuring SLA adherence.
- Produced executive dashboards and reports supporting data-driven decisions.

- Optimized end-to-end request management processes, improving efficiency, turnaround time, and service quality

IT/Telecom Infrastructure Engineer | VALSCH Consulting (Nokia Project) – Abidjan, Côte d'Ivoire

2017 – 2018

- Enhanced security and reliability of telecom network infrastructure (GSM/LTE) through proactive risk identification and continuous monitoring
- Led coordination of incident response activities across network and infrastructure domains, ensuring high service availability and SLA adherence
- Produced analytical reports on network performance, capacity, and risk exposure, supporting strategic improvements and operational decision-making
- Delivered detailed performance and risk analysis reports on network systems, enabling data-driven decisions to optimize reliability and operational efficiency

TECHNOLOGY & TOOLS

ServiceNow (ITSM & CMDB) | Flexera FNMS | Microsoft 365 | Azure | SCCM | Intune | Power BI | VMware | Citrix | Active Directory | Cisco Meraki | Cisco Jabber

Education

Bachelor's Degree in Information Technology (Networking & Telecommunication Systems) EDHEC Business School | Abidjan, Côte d'Ivoire | 2021

Certifications

- **ITIL® 4 Foundation** – Incident, Problem & Change Management | SLA/KPI Governance | Service Operations
- **Cisco CCNA** – Network Troubleshooting (LAN/WAN, DNS, DHCP, VPN) | Routing & Switching | Performance Diagnostics
- **Microsoft Azure Cloud Computing** – Azure IaaS (VMs, Storage, Networking) | Cloud Monitoring | Access Management
- **Agile Project Management** – Service Improvement | Process Optimization | Stakeholder Collaboration
- **GenAI & Agentic AI in ServiceNow** – AI-Driven Incident Automation | Smart Ticket Routing
- **Future of Work** with AI Agents – Workflow Automation | Digital Productivity
- **IT Asset Management &Software Asset Management –** License lifecycle governance, compliance & audit readiness, entitlement reconciliation, cost optimization, and CMDB-aligned asset control.
- **Generative AI for Leaders and Business Professionals** – Applying AI to drive business value, automation, and strategic decision-making.
